

Fens , Bogs, and Wetlands Field Walk

Chickering Bog, Calais—Saturday, August 18th 2pm-5pm

Join **Liz Thompson**, one of Vermont's foremost botanists, landscape ecologists, and co-author of Wetlands, Woodlands, and Wildlands for a relaxed afternoon of exploration in a prime example of a healthy wetland.

These slow moving wetlands are an important feature of Vermont's landscape and critical for many types of wildlife from birds to moose to amphibians. In addition many rare and unusual plants are found only in these wetlands.
