

The Climate, Citizen Science, and You!

Where: The Fairbanks Museum & Planetarium

When: Tuesday Evening, September 18th, 7pm—9pm

Cost: Free for all

Climate Effects

Citizen Science

Have you been curious about the weather? Do you want to learn about the climate? Would you like to be more active in your community and become a citizen scientist? Learn about this and more in an evening with **The Fairbanks Museum & Planetarium** and the **Staying Connected Initiative**.

Christopher Hilke – Program Manager for the National Wildlife Federation's Climate Adaptation Program in the Northeast Region speaks on the climate and how we can be better prepared for upcoming events.

Chris Bouchard – “Eye on the Sky” meteorologist speaks about the weather and what it tells us about the climate.

Learn about **The Fairbanks Museum Community of Observers**, become a member, expand your role in the community.

Brought to you by the: Fairbanks Museum & Planetarium, National Wildlife Federation, & Staying Connected Initiative
