Community Value Mapping in  
Ava, Western &  
Steuben, NY

## # of Value Groups

Town Boundaries

## Roads

- State Highway
- US Highway
- County Road

## Lakes & Ponds

- Lakes, Ponds Reservoirs
- Swamp
- Streams

Community Value data was collected at a community values form at Westernville Town hall on Monday, December 6th 2010. Responses from three small groups were grouped into eight categories (Recreation, working landscape, wildlife, hunting/fishing, economic, scenic, cultural, farming). These value groups have overlapping area on the landscape as some places are valued for more than one reason.

This map shows the number of value groups across the landscape. Places with more value groups (red) are valued by more user groups or for various community values, while places with fewer value groups (green) received less interest.
